WORK EXPERIENCE

Text-2-image-ai   May 2024

Link to Demo

This website is a text-to-image generator that allows users to input text and generate corresponding images using Melonie AI. The website utilizes the Melonie AI API to seamlessly integrate text processing and image generation functionalities.

Emoji-Search   April2024

Link to Demo

– This project is a simple web application for searching emojis using HTML, CSS (with Tailwind CSS), and JavaScript. It utilizes an open-source API to fetch emoji data and is designed to be responsive across various devices.
